DESCRIPTION:

You are welcome to take part in life just as it is in Dreamvalley from moment to moment, from day to day, from season to season. You are free to participate or to retreat, maybe concentrate on your own work such as writing, painting, reading. In wintertime a ski track passes right behind the farm. Rondane Nationalpark is situated close by.

The herd is the circular turning point of our daily rhythms – herd observations, creativity and learning beyond the conventional ways are a recurring theme in our discussions and activities. Also the inner focus with help of meditation and yoga is a continual praxis. The work (depending on seasons) consists of feeding, mucking, chopping wood or building fences, building up the farm and fertilizing the earth. We go for excursions into wilderness with and without the horses. We usually cook together around a campfire in the summer, on the wood stove during wintertime.

Your will live in a very simple style, with outdoor bathroom and kitchen,

in a mongolian tent or a basic cottage. Maybe you even want to build your own tree house? And if you wish a complete retreat you are welcome to stay at the little mountain farm situated 4 km further up the hills close to the beautiful lake Finnsjøen and enjoy complete time off. You may experience how little a person needs when connected to nature.

Tina is NOT a teacher in Being with Horses, but she will explain her handling and path with the horses as well as possible. Your perception and observation skills can thus be refined during your stay.

#### COSTS:

The longer you stay the cheaper it gets. Up to one week you pay Kr. 550.- per day, for up to two weeks you pay Kr. 450.-, up to three weeks Kr. 350.-, from four weeks and onward: Kr. 300.- per day.
